About NTC

NTC Logistics is a global leader in specialized transportation, driven by unwavering commitment to excellence in delivering seamless, cost-effective logistics solutions worldwide.

NTC has set the benchmark for innovation and reliability since its founding in 1997 as Namakkal Transport Carriers. As the #1 renewable logistics company in India, we pride ourselves on our ability to navigate the complexities of the logistics landscape with cutting-edge technology and innovative strategies. Our end-to-end services ensure a flawless supply chain, earning us the trust and loyalty of clients worldwide. Whether it's project logistics or specialized transport, we are your trusted partner in moving what matters, shaping customer satisfaction and business success every step of the way.

Vision

To be a globally acclaimed professional and innovative end-to-end logistics solutions provider with an emphasis on quality, safety, and timely delivery of services.

Mission

- To exceed customers' expectations by delivering cost-effective and high-quality service on time, every time.
- To be the market leader in the multimodal & integrated logistics segments.
- To build lasting customer relationships.

Rising Standards Shaping Tomorrow

NTC Logistics has been officially recognized as the 6th largest Specialised Transport company in the world by IC T50 Ranking - 2024. We proudly stand as the only Indian company in the global Top 20, leaving a significant mark on the global stage.

“

Reaching this Global position in less than a span of 3 decades is a clear testament to our team's unwavering commitment to excellence and the immense trust our clients place in us. We have come a long way, with much further to go, and we are committed to this path with dedication to all our stakeholders, who have made this progress possible”

Renewable Logistics

As India's #1 renewable energy logistics company, we specialize in transporting wind, solar, and hydro equipment. NTC is the pioneer in introducing specialized Wind Blade Adapters and Wind Tower Adapters into the Indian market. Our top-tier logistics solutions and skilled manpower support challenging projects. With in-house facilities, we customize hydraulic modular trailers with a self-designed bolster system for wind blades. We expertly handle the country's largest wind blades (over 83 meters) and other over-dimensional cargo.

Our Q&EHS

Quality, Environment, Health, and Safety remain NTC Logistics' top priorities and core operational values. Our objective is to achieve zero preventable injuries and avoid incidents that jeopardize employee well-being or facility integrity.

Q&EHS takes care of three key initiatives:

- QUALITY service to customers
- BE SAFE to enhance the safe working culture at NTC
- The target of BE GREEN initiative to promote environmental sustainability in NTC's activities

ESG Excellence

At NTC, our commitment to ESG practices drives sustainable growth in today's complex business environment. We prioritize agility, innovation, and adaptability, focusing on environmental, social, and governance principles. Our five-year action plan targets socio-economic development and aims for net-zero impact through carbon accounting. By pursuing EcoVadis certification and aligning with GRI standards, we ensure ethical operations that enhance quality of life. Our dedication to continuous improvement in sustainability reflects our values, guiding us towards a future of positive impact on society and the environment.
